Ms Aggeliki Pappa is the president of the 3Dlexia Cosmos Event, Keynote Speaker and Panel Moderator. The event '**Cutting Edge Science in the Service of Peace Building, in a Pivotal Moment for the Survival of our Planet**' is organised in collaboration with the Ministry of Education of Argentina, Tucuman and the Biopolitics International Organisation.

## Panel of Speakers & Contributors

A) **the only Teenage-Speaker(!) in Geneva Peace Week 2020 (GPW) from UN, Marios Thomeas, who is a fifteen-year-old charismatic student with dyslexia of the innovative "I love dyslexia" EFL School, ( [www.ilovedyslexia.gr](http://www.ilovedyslexia.gr)), Ambassador of the Humanitarian and Educating SOS4love Project ([www.sos4loveproject.com](http://www.sos4loveproject.com)) and honoured with the Diana Award, UK. Marios Thomeas is ready to advocate for every student's RIGHT to EQUITY IN EDUCATION in Greece and internationally, using the GLOBAL ENGLISH VOICE and IDENTITY that he built in the awarded "I love dyslexia" EFL School, by achieving the impossible against all odds when in the Greek Educational System he would stop trying since his teachers told him that he will never be able to learn English as a Foreign Language due to his Special Educational Needs.**

B) **The Minister of Education of Argentina (Tucuman), Dr. Juan Pablo Lichtmajer**

Γ) **The President of the Biopolitics International Organisation, Christos Efthymiopoulos**

## Digital Product of 3Dlexia Cosmos in the UN in collaboration with a NASA Astronaut

*The President of 3Dlexia Cosmos Ms Aggeliki Pappa, Candidate Citizen Astronaut in the 1st Team in the History of Humanity of 500 Citizens Astronauts for a Trip to Space in 2021 for Humanitarian Reasons, by Space for Humanity, USA, is collaborating with the former NASA Astronaut and School Teacher, Dorothy Metcalf Lindenburger for the creation of an innovative video-product that will be launched on the GPW of the UN platform, and every educator or citizen worldwide will be able to download it for free.*

It is the 1<sup>st</sup> episode of the innovative series called: 'More SPACE & LOVE for SDGs' by SOS4Love Project, where Astronauts, Space Scientists and Theoretical Physicists, inspire with their lives and answer to questions that will aid educators act with their students on the 17 Sustainable Development Goals (SDGs) of the UN, using not only space technologies but also the Cosmic Dimension as a canvas of Peace for a New Land of LOVE, Sustainability and Light.

In 2020, Aggeliki got selected in the 1st 500 Candidate Citizen Astronauts in the history of humanity to go to Space in 2021 for humanitarian reasons, by Space For Humanity Organization, USA. Aggeliki’s passion and mission is to support a stigma-free, inclusive education for all and the creation of a Pioneering Consciousness based Edu-Paradigm, rooted in cutting edge science of Heart-Mind coherence & the social interpretations of Quantum Mechanics Theory in life, supporting #Pedagogy4love for a New Earth of Peace, Sustainability and Prosperity for All.

## SOS4love Project of 3Dlexia Cosmos

SOS4Love Project is a global humanitarian educational initiative of 3DlexiaCosmos NPO ([www.3dlexiacosmos.com](http://www.3dlexiacosmos.com)) and its President, Aggeliki Pappa, starting from Greece and spreading internationally. In SOS, 'S' stands for Students, 'O' for Organizing and 'S' for Solutions, with actions on the 17 Sustainable Development Goals (SDGs) of the UN Agenda 2030, highlighting the urgency for #Pedagogy4Love, as defined by Aristotle: 'Educating the Mind without Educating the Heart is no Education at All'. Students of all ages are facilitated by their teachers in a 4-Week Action on any of the 17 goals and all steps and info can be found in SOS4LoveProject site. The project was officially announced and presented in the United Nations through 3DlexiaCosmos NPO and Biopolitics International Organization event in Geneva Peace Week 2017, with the support of the Minister of Education of Cyprus Mr. Costas Kadis and representative school advisor of the Greek Ministry of Education.

Our vision is to unite all nations as ONE and empower YOUTH to be involved in actions on the SDGs of their heart, fostering global citizenship education for Love, Peace and Sustainability in the world.

The project's scope is students, the future world leaders, to cultivate global humanitarian consciousness, to develop important life skills for the 21st century acting collaboratively on SDGs and to become Global Ambassadors of positive change for a better world.

Over 22.000 students, 945 schools, 58 countries and all continents participated in Season of Love 1 of the Project and among them 700 schools in Cyprus, involved in the Collaborative #WETheONE4SGDs Action, supported by the Ministry of Education of Cyprus. In Season of Love 2 starting on the 5th of October 2018, with the support of the Ministries of Education Mr. Kostas Champiaouris and of Environment, Mr. Costas Cadis of Cyprus, all 900 of schools of Cyprus will be involved with the #WeTheONE4SDGs Action once again, touching 100000 students and 11000 educators in Cyprus only, added to all new global participations.

The project is supported by inspirational people from the field of science, sports, arts, technology, politics, among them the Oscar Winning Actress and Activist, Charlize Theron, through their supporting quotes. Kindly visit <https://www.sos4loveproject.com/inspirational-support-sos4loveproje> to discover inspirational people who support the #SOS4LoveProject.

When the 'I' and 'You' becomes an active 'WE' for Love, Peace and Sustainability, our planet can be the one we dream of.

## Description and Mission of 3Dlexia Cosmos NGO:

3DlexiaCosmos is a non-profit organization based in Athens, Greece with the vision to elevate Humanistic, Holistic Education for sustainable development as the principal mean of leverage for the existing general national and international crisis we are experiencing. 3DlexiaCosmos actions address to students, educators and citizens of Greece and the international community aiming to awaken, internally empower, encourage, and cultivate in-depth the human virtues, spirit, knowledge and innovative thinking so they may hope to

attain their personal fulfillment, thus actively contributing to the sustainable development, as useful, able, balanced and conscientious citizens of the World. This can be achieved through the implementation of innovative educational paradigms like 3Dlexia in order to achieve transformative results in the future of the world with the power of holistic education.

### **Description and Mission of “i love dyslexia” EFL School:**

“i love dyslexia” (ILD) is the first and unique fully specialized educational organization globally for the holistic teaching of English as a Foreign Language to students with dyslexia and other learning needs. Our organization was shortlisted as one of the top 10 innovative organizations in Greece and is the only one distinguished in the field of education for 2015, in the annual competition “Greece Innovates”, jointly run by Eurobank and SEV (Hellenic Federation of Enterprises). ILD’s founder and Head of Research, Ms Aggeliki Pappa, has been elected as one of the 50 top teachers worldwide, through the institution of the Global Teacher Prize 2016.

The core of ILD innovation combines: (a) original material for complete, systematic and holistic intervention, globally, in teaching foreign languages, developed by Ms Aggeliki Pappa, based on the different brain of people with dyslexia, at the same time making use of new technologies and (b) experiential workshops for “differentiated teaching”, whereby groups of students of differing abilities, ages and level of English, develop not only their foreign language skills, but also Life Skills (Life Skills Education) which are a must when dealing with the challenges of the 21st century.

The ultimate aim of ILD is the improvement of life quality for its students, by offering them access to the holistic learning of the English language, but also the diffusion of knowledge, experience, research and ethos that characterize its activities in the domain of education in general, within the Greek and global educational community. To achieve these aims, we voluntarily undertake training programs for state and private institutions in Greece, but also through projects in which “i love dyslexia” participates, representing Greece for educational innovation at an international level.

The founder and Head of Research of the award-winning, innovative educational organization “i love dyslexia”, is Ms Aggeliki Pappa, English Language Teacher, special educator, researcher and teacher trainer in international projects at Folkuniversitetet in Uppsala, Sweden.
